

NATURE STORIES

Create short stories from nature!

What to do:

- Go for a walk and look out for interesting things - sticks, pebbles, shells etc.
- Use your imagination to think up different explanations for why the item might be there.

MATERIALS

1. The Outdoors.
2. Imagination.

Examples:

"That feather was used by a spider as an aircraft to travel across the forest."

"That shell is a boat for a mouse. He put it under the rock to keep it safe."

"That pebble was dropped by an elf. They use pebbles for money. Different shaped pebbles are worth different amounts."

How many nature stories can **you** find in **one** walk?
