
EMERGENCY TURTLE

THE MOUNTAIN WITH A BROKEN HEART

Come on some journeys with us. Let us take you through ancient landscapes and hidden worlds with masterful music and storytelling and awe-inspiring shadow theatre.

This is a heart-stopping collection of tales from near and far. These unique stories deal with the common language of the human experience- of jealousy, of misunderstandings, of grief, of joy and compassion.

AGES: 7+

THINGS YOU'LL NEED FOR THE WORKSHOP: torch (torch app on phone is fine), card, a box of some kind (shoebox, cereal packet etc), a sheet of tracing paper, tape, scissors and a thin stick or two (bamboo skewer, thin green garden cane etc).

ABOUT EMERGENCY TURTLE

Emergency Turtle started out in 2018 with a short story that the group put together as an experiment. Following the success of this they then went on to build a full length show. It has since toured to community venues in Wales, enjoyed coming to the Isle of Wight Storytelling festival last February and performed on a barge at 6 Music festival in March. They were due to tour midscale venues in Wales when Covid hit. They very much look forward to touring again once such things are possible!
